

Helping protect those who are protecting us.

America's frontline healthcare workers are risking their lives during the COVID-19 pandemic. As a mutual company, we know the importance of supporting one another. Our way of supporting those on the front line is **MassMutual HealthBridge**, a free term life insurance program. It's how we are helping healthcare workers protect the ones they love.

What is MassMutual's HealthBridge Program?

MassMutual HealthBridge is a free life insurance program for eligible healthcare workers.

HealthBridge offers a 3-year term life policy of up to \$25,000.

As of June 30th, HealthBridge is available in all 50 states and D.C.

HealthBridge is a guaranteed issue product that requires no medical questions and no physical or lab testing.

Applicants must meet the following eligibility criteria:

- Be between the ages of 18 and 60.
- Have either a U.S. citizenship and residency or a permanent residency status.
- Recently actively employed or volunteering at least 10 hours per month at a health care or emergency medical services provider that is testing, treating, or evaluating patients for COVID-19.
- Work in a role that has or will have direct in-person contact with patients diagnosed with or being treated/evaluated for symptoms related to COVID-19.
- Live or work in the United States where HealthBridge is available (not available in Puerto Rico or the U.S. Virgin Islands).
- Have annual income of no more than \$250,000.
- For eligibility requirements, see our **Frequently Asked Questions**.

We are grateful to these frontline healthcare workers for putting others above themselves. We've always supported our communities, and it's our hope this program helps provide those eligible with greater peace of mind for their loved ones.
